**A unique self-defense book for children and parents that WORKS!**  
***Don't let your child be the next victim!***

Empower your children with self-defense techniques that work; teach them to defend themselves in any threatening situation while learning in a non-threatening environment. The key to our children's safety is to give them these specific survival tools so that they never enter that car, never grab that hand, and so they know how to get away before they are grabbed.

**Children must be able to fight back!**

**TEACHERS!** C.L.A.S.S. Self-Defense Teacher Manuals for Elementary, Middle school and High school will also be available!
