A unique self-defense book for
children and parents that WORKS!
*Don't let your child be the next
victim!*

Empower your children with self-defense
techniques that work; teach them to defend
themselves in any threatening situation while
learning in a non-threatening environment.
The key to our children's safety is to give
them these specific survival tools so that
they never enter that car, never grab that
hand, and so they know how to get away
before they are grabbed.

Children must be able to fight back!

This book gives them that chance!
